“Our experience at the recent parents evening was very positive and we are really pleased with the progress our son has made with you. We feel that staff have a good handle on what he is doing well and how we can help him further.”

## Transition to Bradfield

Moving from primary to secondary school can be the most exciting and possibly daunting prospect for our children to experience. We are well aware of this at Bradfield School, which is why we have worked hard to ensure a full and supportive programme for our new pupils. We make every effort to get to know them as well as possible by developing strong links with our feeder schools, by providing a full transition programme ensuring continuity of learning and by helping them to become 'secondary ready.'

97% of our current Year 7 pupils and 93% of their parents felt that they had settled well into Bradfield school by October half term, with additional support given to those that still felt a little unsure at that point. Many of our wonderfully friendly year 7 pupils are now eager to become Transition mentors to help your children to enjoy their transition process and settle just as quickly.

You may also find the information via the links below helpful to start to prepare your children for the move to secondary school.
